

Save money, support a worthy cause and reduce your carbon footprint.

The Buffalo Police Athletic League

is holding a fundraiser, but we're not asking for money and we're not selling anything. Instead, we're raising funds by putting money back into your pocket! Here's how it works:

Our partner guarantees monthly clean energy credits on your local utility's electricity bill by remotely connecting your home and/or business to a community solar farm in your area. You get the benefits of having solar without having to install solar panels!

Since this is a state-sponsored program, 10% savings via renewable clean energy credits will arrive monthly on your local utility's electricity bill, lowering your total cost...GUARANTEED!

Plus, you'll reduce CO2 emissions from your home and/or business by 90%!

- Takes 2-3 minutes to enroll
- ZERO cost!
- NO cancellation fees!
- NO change to your Utility Co. or Supplier!
(In IL, basic service customers only)

Do yourself, us, and the planet a favor.

Save yourself some cash, help our cause in the process, and join the Clean Energy Revolution!

Buffalo PAL gets a \$25 donation for every customer signing up through our link.
